BISBEE DAILY REVIEW

REGULAR MEMBER OF THE ASSOCIATED PRESS.

Washington, Aug. 25.—Forecast
for Arizona: Partly cloudy Wed-
nesday. Thunder storms Thurs-
day, fair.

VOL. IX.

BISBEE, ARIZONA, SATURDAY MORNING, AUGUST 25, 1905.

NO. 99

CZAR APPEARS IN LIGHT OF YIELDING

Negotiations Proceed now Direct Between Oyster Bay, St. Petersburg and Tokio--Plenipotentiaries will Probably Have Nothing to do Today but Adjourn Until Monday.

Portsmouth, N. H., Aug. 26.—The Associated Press is permitted to announce that Emperor Nicholas' "Answer to President Roosevelt's latest appeal was partly responsive." Whether negotiations now being conducted through President Roosevelt will have reached such a state by an hour at which the conference is to reassemble at Portsmouth today as to enable plenipotentiaries to proceed with important considerations, is regarded as doubtful.

Oyster Bay, Aug. 25.—Baron Kaneko of the Japanese peace commission had an interview with the President today, the third within the last ten days.

"I cannot talk now about my mission to the President," he said. In regard to the statement of Count Lamsdorff, the Russian minister of foreign affairs, in which he declared that Russia would not pay any indemnity or make any cession of territory, Baron Kaneko said: "It was a great mistake."

KUMORA GOES TO MANCHESTER.
Portsmouth, Aug. 25.—Baron Komura and four members of the Japanese peace commission, left Portsmouth for Manchester, N. H., today, to visit the extensive cotton mills there.

DEEP ANXIETY AT PARIS.
Paris, Aug. 25.—A sentiment of deep anxiety prevails in official quarters here concerning the outcome of the Portsmouth conference, owing to the receipt of discouraging advices.

Grand Duke Vladimir, uncle of the emperor, is using his powerful influence in favor of peace.

AT ST. PETERSBURG.
St. Petersburg, Aug. 25.—After seeing Foreign Minister Lamsdorff, Mr. Meyer, the American ambassador, sent another long dispatch to Washington last night. It is impossible to learn the nature of this dispatch.

Lamsdorff saw the emperor yesterday, and a special council of foreign office officials, with Lamsdorff presiding, will be held this afternoon, at which peace negotiations will be discussed.

AT TOKIO.
Tokio, Aug. 25.—Following the receipt of a cablegram from Baron Komura, Premier Katsura and secretary general of foreign affairs, called Marquis Ito into a lengthy conference. It is believed that most important developments are forthcoming.

Portsmouth, Aug. 26.—It appears to be likely that the envoys will meet, and after a perfunctory session today adjourn their deliberations until Monday or possibly until Tuesday. This adjournment will afford them ample time to receive and consider instructions from their respective governments, which will be based on exchanges now in progress between Sagamore Hill and St. Petersburg and Tokio.

Both Sides Sparring.
Portsmouth, N. H., Aug. 25.—The peace conference tonight seems headed straight for the rocks. Despite the fact that every question of principle involved in the quarrel between the two countries has been settled in favor of victory, and that apparently only "words and money" still separate them, the negotiations seem on the verge of final rupture.

GRAHAM'S BOND IS \$50,000

George Woodward Furnished Amount to Keep Douglas Man Out of Jail--Significant as to Amount of Damages Claimed.

To those who are somewhat puzzled as to whether B. F. Graham, of the Ensenada company, and Messrs. Brooks and Wylie, of the force which took possession of the El Tigre mine, are under arrest or not, or if under arrest are out on bond, it may be stated upon the best of authority that all three are under arrest for the part they took in securing possession of the mine, and what is more to the point, they are not out on bond.

There is no habeas corpus in the Republic of Mexico, and therefore prisoners can not be released on bond. Messrs. Graham, Brooks and Wylie are not subjected to confinement in prison pending the result of the El Tigre inquiry, but are allowed the freedom of the town of Moctezuma under what is called "surveillance," which is very similar to our parole system. They can not leave Moctezuma until a decision has been given in the case by the court, and can not leave the district or the county.

It was learned yesterday through a gentleman who arrived from Moctezuma, that George F. Woodward, an American millionaire residing there, and one of the richest men in Sonora, had made himself responsible for Mr. Graham and the others in the sum of \$50,000, but this amount only kept

them from being confined and did not permit them to leave town.

The construction put upon the amount of the bond, or security for the appearance of Mr. Graham, here is that it also represents the amount of the damages that the complainants against Mr. Graham and associates feel to be their due for injuries sustained, and also reflects the opinion of the Judge of the First Instance, who fixes the amount, as to what would be an equitable payment to the complainants in the event they should make out their case as represented in the beginning of the action. It is also the opinion that the bond money put up by Mr. Woodward would go to the government in the event Mr. Graham should flee from the country. Whether in that event such portion as the courts might consider proper would then be awarded to the complainants, or whether they would simply be given possession of all interests left by the bond jumper in the court's district or the state is a mooted question.

REUNION OF THE 19TH MAINE.

Clinton, Me., Aug. 25.—The thirty-third annual reunion of the Nineteenth Regiment of Maine Volunteers is being held here today. Many of the comrades who are in attendance are accompanied by their wives.

MRS. LAURA OXFORD JUMPS

St. Louis, Aug. 25.—Escaping from her niece, who was taking her back to her home in Texas, after a serious illness, Mrs. Laura Oxford, aged thirty-two, jumped from a train that was stopped on the Eads' bridge today and was drowned. Nervous trouble is considered responsible.

LIST OF TRINIDAD DEAD

Accurate Details of Cloud-burst Still Lacking

Denver, Aug. 25.—Following is a list of the dead and missing as officially reported from the Trinidad cloudburst disaster:

Mrs. Joseph Veltrie and small child.
Pasqual Canto.
Joseph Mozasco.
Rafael Buche.
Antonio Constantino.
Philip Falters.
Pasqual Bottalmo.
James Amotherman.
Harry O'Neal.
Wm. Rayball.

Representatives of the Colorado Fuel Company at the scene of the disaster have been instructed to provide for the families of employees who were drowned.

At midnight tonight it was impossible to get anything like accurate report of damage wrought.

FRENCH MEAN BUSINESS

Orders Issued for Mobilization of Troops

Paris, Aug. 25.—A dispatch from Oran, Algeria, says that Liberty, a newspaper of that place, declares that a flying column, comprising infantry, artillery and cavalry is ready to occupy the Moroccan garrison town of Salda, in the event of the Sultan's non-compliance with the French demands.

Military and naval authorities today received instructions for mobilization of colonial regiments and to hold warships in readiness.

EQUITABLE ADMISSIONS

Society Directors Make Clean Breast of Wrong Doings

New York, Aug. 25.—The Equitable Life today joined with the state of New York in asking for a full investigation in court of its directors and officers and their alleged wrong doings in managing moneys of the Society.

The document which announced this was the answer of forty-nine Equitable Life Assurance directors to charges made against them in connection with the suit brought against the Life Assurance Society by the state.

Admission is made that some officials of the Equitable have been guilty of improper and illegal acts. In all, thirteen charges are answered by the directors. Among these answers they admit the \$250,000 loan to the Depew Improvement Company and the \$685,000 loan of the Mercantile Trust Company. Admission is made that under the guise of salaries, excessive fees were given to certain Equitable officials.

Outlining their belief as to the best policy to pursue in fixing blame for Equitable scandal, the directors say first, that blame for alleged cases of misconduct will be found to rest on individual officers and not upon the directors as a body. Having made this explanation the answer then admits in a general way the wrong doing charged.

WHITTLESEY RELEASED

Furnishes Bond in the Sum of \$2,000

Tombstone, Aug. 25.—Roy Whittlesey today gained his freedom from jail pending the next grand jury, furnishing bond in the sum of \$2,000. His bondsman are Frank Ramsey, of Douglas, and O. McCutcheon, of Bisbee. He will probably return to his home at Lowell tomorrow. His attempt to enter the house of Mrs. Engle several weeks ago, his shooting of her in the arm, a fusillade of bullets fired by him later into the house in effort to kill his divorced wife, and the shooting of him by Reslinger, are incidents still fresh in the public mind. Reslinger's present whereabouts and the whereabouts of Mrs. Whittlesey are still unknown to the officers. The two are supposed to have been induced by friends of Whittlesey to leave the country and thereby make prosecution of him less severe. It is presumed that his defense in the case of Mrs. Engle will be that shooting of her was accidental.

BAPTISTS DIRECTORS IN SESSION

Dallas, Tex., Aug. 25.—The board of directors of the Baptist State convention met here this morning to consider business matters and set the time for the holding of the next annual convention. The board consists of thirty-five leading Baptists, representing the various churches of that denomination.

GIVE OUT MORE HOPE

Authorities at New Orleans--Stop Indiscriminate Travel

New Orleans, Aug. 25.—Action was taken today at a meeting of the State Board of Health to enable the federal authorities to put a stop to indiscriminate travel between infected points and New Orleans.

The yellow fever situation today was regarded as having undergone no change. Dr. White's announcement that if the people will faithfully screen themselves, disinfect and obey the regulations which have been made and report cases promptly, it is possible that there will be an entire cessation of infection within the next thirty days, has spread a most hopeful feeling throughout the community.

The report to 6 p. m. is as follows: New cases, 65; total today, 1665. Deaths, 6 total to date, 232. New foci, 16; total, 376. Remaining under treatment, 280.

RYAN CALLED QUITTER

Claimed Foul in 15th Round With Gardner

Colma, Cal., Aug. 25.—Buddy Ryan, claimed foul in the fifteenth round of his fight with Jimmy Gardner tonight, and the referee disallowed the foul and declared all bets off, saying the men should not be permitted to give such an exhibition in Colma Club.

Even had Ryan not quit in the fifteenth he would probably have been defeated, as Gardner showed his superiority in most of the rounds. Gardner's blocking was remarkable, and Ryan landed only one really hard blow.

HOLMES IS INDICTED

Charge is Conspiracy to defraud Government

Washington, Aug. 25.—Edwin S. Holmes, of this city, until recently associate statistician of the Department of Agriculture, but who was dismissed as an outcome of investigation in the leakage in cotton crop reports, has been indicted by the grand jury on a charge of conspiracy to defraud the government.

This announcement was made by U. S. District Attorney Beach today after he had returned from New York City, where he had been instrumental in causing the arrest of Frederick A. Peckham, a New York broker, and Moses Haas. There are two indictments covering the charges against the three men.

New York, Aug. 25.—Physicians are much interested in a curial issued yesterday by the New York Post Graduate Hospital, announcing the discovery of a new cure for consumption.

The remedy is the juice of raw table vegetables, such as potatoes, beets, carrots, onions, celery and like products, to be secured by grinding and squeezing, a dose being two ounces after meals.

The statement is made that eleven patients with well developed pulmonary tuberculosis have been absolutely cured.

FRIGHTFUL CANANEA STORM

Two Killed by Lightning, While Mining Camp was a Literal Mass of Flashing Electric Bolts--Torrential Rain Accompanied Storm.

Cananea was visited by a terrible storm Thursday evening, as a result of which two men are dead and a third believed dying. An electrical display which threw the city into terror accompanied a torrential downpour which lasted for over an hour. Continuance for a while longer would have resulted in a flood disaster. Several houses were invaded by water as it was. Had the same amount of water fallen in Bisbee the business center of the city, in view of the present condition of the subway, would have been wiped out with necessarily large loss of life accompanying.

Attorney J. W. Baker and Emil R. Wolff returned last night from Cananea, where they had been to straighten out some mining titles. They report the details of a tremendous storm which occurred there on Thursday night, beginning about 5 p. m. and lasting over one hour.

The storm was an electrical one, accompanied by an immense downpour of rain, and Judge Baker says that it had continued as long again as it lasted, a general disaster would have taken place.

As it was, two men were killed by bolts of lightning, one sent to the hospital badly injured, and two buildings were destroyed.

According to Judge Baker's description, the day had been exceptionally cool and warm, and between 4 and 5 p. m. angry looking clouds began to gather over the camp. At about 5 o'clock the storm suddenly broke forth, announcing its arrival by a tremendous volley of thunderbolts, which threw the inhabitants into a state of terror. Bolt after bolt struck in every direction in town, and the accompanying thunder was tremendous in its volume.

Rain in immense quantities followed the electrical display, and it was thought for a time that the lower sections of the town would be wiped out. Fortunately at the expiration of one hour and ten minutes the storm had spent its fury in that section of the country, and ceased to be a menace to life and property.

After it ceased the officials of the town made immediate inquiry as to loss of life and damage to property, and found that two lives had been lost, one man injured, and two buildings destroyed.

The two men killed and the one injured were teamsters, and took refuge under a tree about 100 yards distant from the railroad depot when the storm started. A bolt of lightning struck the tree, killing two outright and injuring the other so badly that it is not believed he will recover. He has a bad burn on his head and his body is paralyzed.

A blacksmith shop was also struck at about the same distance in an opposite direction from the depot and entirely destroyed, as was likewise one more building in another part of town.

Many houses in the lower part of town were flooded, but no damage of a serious nature was done to the Greene company's property or any of the main buildings of the town.

Judge Baker says that the bombardment during the electrical storm was something terrible, and if the rush of waters that then accompanied it had occurred it Bisbee the greater part of the town would have been wiped out. As it was, the topography of the town of Cananea enabled the gulches to carry off what water fell. Providence saved more people from being killed by the terrible bolts of lightning that almost tore the surface of the ground to pieces. Old residents of Cananea, the Judge says, pronounced the storm the worst that ever took place in the town, and are thankful that no further damage was done than reported.

Tombstone, Aug. 25.—During storms had here in the last three days which have been accompanied by much lightning, several houses have been struck by the latter.

At the residence of James Lamb a bolt came down the chimney, doing much damage on the interior of the house, but injuring no one. Frames were burned from pictures, and other freak pranks played, by the dangerous substance.

The house of Mrs. Rankin was struck and considerably damaged. Mrs. Rankin was thrown to the floor by the shock, and for two days has been confined to her bed. She was today said not to be out of danger.

The house of Roger Sanders was struck and also damaged. Mrs. Sanders was knocked down by the shock, but did not sustain injury, though for a time she was in a dazed condition.

Other Suspects Arrested.

Alamogordo, N. M., Aug. 25.—Manuel Arvigo and Domingo Chavez, two Mexicans who are in jail here on the charge of having robbed M. V. Mitchell's place in this city on the 16th of July, have been identified as the two men alleged to be the murderers, the officers declare, of Sam Plunkett and Ed Kennedy at Livingston, Ariz., on July 12th of this year. The murder is said to have been very cold-blooded.

TRIED MURDER OF BALDWIN

Attempt on Life of General by Soldier who Bore Him a Grudge Results in Discontinuance of Use of Blank Targets in Practice.

Denver, Aug. 25.—Since the bullet from a Krag-Jorgensen rifle barely missed the head of General Baldwin at Fort Logan, during the practice maneuvers, an investigation has been in progress and the use of all cartridges, blank as well as loaded, has been discontinued. It is charged the bullet was fired in a deliberate attempt to murder the commanding officer.

The bullet whizzed so close to the head of General Baldwin that he said he fancied he could smell it, and the odor was not unlike that of a hard-boiled egg.

Despite the fact that General Baldwin, who is now stationed in Oklahoma City, in charge of the southwestern division of the United States army, proved one of the bravest and most popular officers in the service during the Philippine campaign, it is common gossip at Fort Logan that in the maneuvers a few months ago a loaded shot was fired at him by some soldier who bore him a grudge.

It was for the same reason—that of danger to officers—that the use of blank shells in practice maneuvers at Fort Riley, Kan., and at other army posts have been discontinued.

For effect the incident at Fort Logan was passed over lightly, so far as the enlisted men are concerned, but it was taken very seriously by the officers, and it is understood a report was made to the war department at Washington.

General Baldwin is said to have laughed as he saw the steel-tipped bullet from a Krag-Jorgensen rifle bury itself in a water tank, in the shade of which he was standing, directing the movements of the sham skirmish in the field on the outskirts of the reservation.

"A miss is as good as a mile!" the general is said to have exclaimed. The other officers were not inclined to take the same casual view of the incident, and a searching investigation was made, in the hope of discovering the man who substituted a loaded shell for a blank one and fired at the commanding officer.

The investigation proved futile, but since then there has been no more firing of blank cartridges and the maneuvers are not as spectacular.

Several troopers who served in General Baldwin's command in the Philippines, and who are said to have harbored a grudge, were suspected in connection with the stray shot, but there was a lack of tangible evidence to warrant arrest, and the matter was allowed to drop with the discontinuance of shooting during maneuvers at the post.
